- Finalising Delphi study report June/July 2010
- STRAW 10-11 June 2010
- STRAW report June – Oct 2010
- **SRA development** September 2010 – February 2011
- **Action Plan for maintenance SRA** June – Oct 2010
- Action Plan for **joint trans-national programming**: start September 2010 (together with WP1, WP2 and WP3)

Maintenance of SRA

Issue: Action plan for maintenance of Strategic Research Agenda cannot be ready in time because of the necessity to wait for the results of the Delphi study and the STRAW and overall response by Delphi/STRAW participants and EMIDA consortium members on the process followed for SRA development.

The development of the strategic research agenda (SRA) should be validated or at least be supported by those involved with research funding, procurement and execution;

Therefore all EMIDA consortium members must be involved in the drafting of the action plan for maintenance of the SRA.
